Mr. Deuser,

Thanks for responding on behalf of Orman for US Senate Inc. Unfortunately, we can not process the response without the okay from Wynne Jennings, Treasurer, or Gregory Orman, Candidate. If the treasurer or Candidate sends us an email or letter letting us know it is their request that we receive the response, we will gladly do so.

Thanks.

Subject: Orman For U.S. Senate MUR6916

Dear Frankie Hampton,

I'm writing today in response to a letter received from the Federal Election Commission regarding a complaint against the Orman For U.S. Senate Campaign, matter MUR6916.

This Complaint was filed against us and, what appears to be, all other customers of a company called NGP VAN, LLC. It essentially alleges collusion among all parties to purchase information at rates below market and therefore, should count towards an in kind contribution for the campaign.

The Orman For U.S. Senate Campaign has never participated in any discussion, activity, negotiation or otherwise with NGP VAN to receive below market rates. Nor has the campaign communicated with other campaigns in attempt to share information or receive below market rates. Orman for U.S. Senate engaged the services of NGP VAN, LLC for a period of three months during the last election cycle and paid the full asking price (\$750/mo) of NGP VAN, LLC. We believe the services provided were comparable in price to that of competitors.

Furthermore, the complaint alleges the collusion taking place was among members of the Democratic Party. Mr. Orman was an *independent* candidate for U.S. Senate and did not affiliate with any party.

Therefore, we would request that the complaint be dismissed immediately so that Orman For U.S. Senate can file its final report with the FEC and dissolve the campaign. Your assistance in this matter is greatly appreciated.

Please also note that the address on file with the FEC is no longer valid as the campaign has closed all of its office. I would request that you update your records to reflect
